Rushes Soho Shorts Festival 2006 Short List Announced

Rushes Postproduction Ltd is proud to announce that the panel of judges, comprised of top film and advertising industry figures, has selected the shortlist for the eighth Rushes Soho Shorts Festival which will be held between Saturday 29th July and Friday 4th August 2006.

In 2005, after six successful years based solely in the capital, the Festival teamed up with VUE CINEMAS to become a Nation-wide event, with screenings across the UK. The highly successful regional reception of the festival last year has ensured Vue Cinemas are involved for the second time and will be showcasing the short-listed films in Shepherds Bush, Edinburgh, Oxford, Cambridge and Leeds as well as VUE West End, Leicester Square, who are hosting the delegate centre again for the festival week.

A record-breaking 2,000 Short Films, Newcomer Films, Music Videos, Title Sequences and Idents were entered into this year's festival, reinforcing the UK's reputation as one of the leading creative industries in the World.

Exceptional short listed films to look out for include Goodbye Mr Snuggles starring James Fox and Robert Hardy; The Technical Hitch featuring the voice of Robert Lindsay; Good Morning Baby starring Piper Perabo, sexy star of Hollywood blockbuster 'Coyote Ugly'; Phobias starring Paul Kaye; Dita Von Teese starring the woman herself; Wonderful World shot by first time writer/director Karen Cunningham; Out of Time starring Mark Heap; Love Letter, starring Jaime Winstone, daughter of Ray Winstone; Project Huxley starring the legendary Derek Jacobi; Old Dog starring David Soul; The Open Door starring Michael Sheen and CUBS starring Ashley Walters (star of acclaimed independent film Bullet Boy).

The Rushes Soho Shorts Festival 2006 Short Lists:

- The Sony Music Video Award - recognises quality and innovation in pop videos
- 'Carpark North - Human' directed by Martin de Thurah - Academy Music Videos
- 'Gorillaz - El Manana' directed by Pete Candeland and Jamie Hewlett - Passion Pictures
